Akaky Press, United States, 2011. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****. Public Ed Dread: How Wishful Thinking and Good Intentions Reformed Academics Right Out of Our Public Schools is a must-read for concerned parents, homeschoolers, grassroots reformers, and concerned citizens alike trying to make sense of American public education. This book was written by a teacher with years of experience in the system. The author taught in a low-income, Title I failing school in California where she experienced the politics of whole language and No Child Left Behind. She also taught in a middle-class, suburban school where she witnessed the effects of the accountability reform movement on students. Weaved throughout the book are the author s personal experiences from her time teaching in polar opposite public schools. The author s unique perspective on public education in action is eye-opening and comprehensive. It shows that no schools are safe from the perils of the de-emphasis on academics. This book provides the background necessary to understand how our public schools came to embrace the non-academic values it does now. Public Ed Dread explains the evolution of the methods, objectives, and policies of public education through the following chapters: Chapter 1: The School of Wishful Thinking and Magic Bullets Chapter 2: Dumbed Down But Equal Chapter 3: The New 3 Rs-Race, Class, Gender, Social Justice Chapter 4: Fuzzy Thinking Chapter 5: An Education in Cooperation? Chapter 6: Pimping Out Public Education for Power and Profit Chapter 7: End the Dread //.
