NOTES ON THE CARE, CATALOGUING, CALENDARING, AND ARRANGING OF MANUSCRIPTS (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Notes on the Care, Cataloguing, Calendaring, and Arranging of Manuscripts The Library of Congress has not made a practice of issuing manuals descriptive of its administrative processes or the specialized treatment of particular collections. In the case of the manuscripts, however, a description seems desirable for several reasons: First, because there seems not to be available in print a practical guide or aid to the treatment of archive material; second, because, in the absence of such a guide, the authorities of the Library have had repeated requests for advice on various technical details connected with such treatment; and third, because the processes at present in vogue in our Division of Manuscripts represent decisions reached by a long and intimate experience with a large and important collection, varied in form and condition, and requiring methods of treatment that will not merely insure safety and permanence, but prompt efficiency in response to a varied demand. In the case of manuscripts, therefore, it has seemed well to make available in print a description of the procedure in the Library, of the processes, and of the convictions of experience upon which, between varying methods, a choice has been made; and the statement which follows has been compiled not merely as a report of operations in progress, but with a view to its possible utility to other institutions having like problems.
